:ACCESSORIES

:DOMINO

:DOMINO

Dominates any type of system with the ease of a simple gesture that touches an object of high design. DOMINO is reliable and user-friendly with its ergonomic small (but not too small) buttons. You can attach it to your key ring or secure it in your car using the fastening system included in the blister pack.

With the nifty accessories you can personalise your remote control in your favourite colour, in fact, the covers are easily interchangeable in just a few seconds.
DOMINO: the modern way of using the most advanced safety devices

ergonomic buttons

interchangeable covers

thickness 11 mm

⸬MANAGER

Remote controls - Frequency 433 MHz

DTC 4334
Rolling Code remote control, two-colour black-grey, 4 channels, frequency 433 MHz, with key ring and Velcro fastening included. It can work only with the MANAGER system

Package Pieces 1
Code **AU03010**

DTC 4334
Rolling Code remote control, two-colour black-grey, 4 channels, frequency 433 MHz. It can work only with the MANAGER system

Package Pieces 40
Code **AU0410**

BLISTER ACCESSORY
Set of 3 coloured covers for DTC 4334 + key ring and Velcro fastening

Package Pieces 1
Code **AU04000**

Radio receivers - Frequency 433 MHz

DRC 4334
4-channel receiver for DRR 1000, DRR 2000 cases and DSL 2000 flashing light (outdoor use). It can work only with the MANAGER system

Package Pieces 1
Code **AU02820**

DRC 4332
2-channel plug-in receiver for control units. It can work only with the MANAGER system

Package Pieces 1
Code **AU02920**

Programmer

MANAGER
Programmer that allows the complete management of all the installations made with the MANAGER series devices

Package Pieces 1
Code **AS05150**

Accessories

DCT 100
TRANSPONDER (Rolling Code) transmission device in packets of 20 pcs., without plastic case, to insert into DOMINO remote control. It can work only with the MANAGER system

Package Pieces 20
Code **AU03040**

DCT 200
TRANSPONDER (Rolling Code) transmission device in packets of 20 pcs, in plastic case. It can work only with the MANAGER system

Package Pieces 20
Code **AU03030**

DCT 300
TRANSPONDER (Fixed Code) transmission device in packets of 20 pcs, in plastic case. It can work only with the MANAGER system

Package Pieces 20
Code **AU03035**

DCT 400
TRANSPONDER (Fixed Code) CARD transmission device in packets of 20 pcs. It can work only with the MANAGER system

Package Pieces 20
Code **AU03070**
€ 110,00

DCX 100
TRANSPONDER receiver for DCT 100 and DCT 200. Frequency 433 MHz. Activation distance 0÷20 mm. It can work only with MANAGER system (12/24 Vdc - ac)
Package Pieces 1
Code **AU05000**

DCD 100
Keyboard for the activation up to 9 installations dialling up to 1000 customized codes. Frequency 433 MHz. It can work only with the MANAGER system (12/24 Vdc - ac or battery)
Package Pieces 1
Code **AU02100**

:MANAGER

MANAGER System

The programmer easy to use that allows the complete management of all the installations made with MANAGER series devices.
The possibility to manage the system by PC makes it easy to use and flexible.
The solution offered by GIBIDI to all customers who want to make the installation their own domain.

The system programming is done in WIRELESS technology.
MANAGER allows the user to program transmitting and receiving devices both at radio frequency and at transponder and to manage functionality, customization, authorisation, modification and also the innovatory system anti-cloning always in safety modality (ROLLING-CODE).
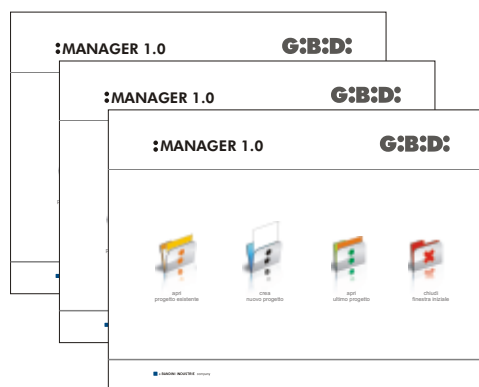

:PRG

Remote controls - Frequency 433 MHz

DTS 4334
Rolling Code remote control,
black, 4 channels,
frequency 433 MHz,
with key ring and
Velcro fastening included

Package Pieces 1
Code **AU03000**

DTS 4334
Rolling Code remote control,
black, 4 channels,
frequency 433 MHz

Package Pieces 40
Code **AU0400**

BLISTER ACCESSORY
Set of 3 coloured covers
for DTS 4334 + key ring
and Velcro fastening

Package Pieces 1
Code **AU04000**

Radio receivers - Frequency 433 MHz

DRS 4334
4-channel receiver
for DRR 1000 case
and DSL 2000 flashlight
(outdoor use)

Package Pieces 1
Code **AU02810**

DRS 4332
2-channel plug-in receiver
for control units

Package Pieces 1
Code **AU02910**

Programmer

PRG 01
Programmer to customize
remote controls and receivers,
copy memories, add and/or
remove users and other
advanced functions

Package Pieces 1
Code **AS05140**

:PRG

PRG System

The base programmer that allows the user to program the ROLLING-CODE transmitters and receivers with customized code, add, display and erase users with UP & DOWN search.

⦂DSL

CAUTION: DSL2000 does not include the light board + bulb, which must be ordered separately

Installation example

wall-mounted   rotating base   pillar-mounted

:DSL

**System
for external
flashlight**

Yet another joy of modern technology and intelligent design applied to a flashlight. Thanks to its modularity and extremely easy installation, the radio receiver and antenna are quickly integrated into one single product. All you have to do is choose the type of flashlight and your product is complete.

If you decide to use the built-in radio receiver, you can store the transmitters simply by using the controls on the case.
DSL: the new hallmark of your automatic gate.

Kit contents

IP55 — external protective cover

coloured cover

flashlight board housing

receiver board housing — seal

base with cable conduit and seal

antenna base housing for wall-mounted device — antenna base housing for pillar-mounted device

		Package Pieces	Code
DCF180	Pair of synchronised photocells, 180° rotation (12/24 Vdc/Vac), maximum range 30 m • IP54	1	**AU02000**
DCF180D	Pair of synchronised digital photocells (maximum 16 pairs), 180° rotation (12/24 Vdc/Vac), maximum range 30 m • IP54	1	**AU02010**
DCF180DB	Pair of synchronised digital photocells, 180° rotation (12/24 Vdc/Vac) with battery-powered transmitter (batteries included), maximum range 20 m • IP54	1	**AU02020**
DCB100	Spare battery kit for DCF180DB (AU02020)	1	**AU01990**

		Package Pieces	Code
DCS100	Wall-mounted key selector and DCA series columns + 3 keys • IP54	1	**AU01940**
DCS200	Wall-mounted key selector and DCA series columns with LED light + 3 keys • IP54	1	**AU01950**
DCS300	Wall-mounted key selector battery-powered via radio and DCA series columns + 3 keys • IP54	1	**AU01960**

The key selectors **must be ordered asking for the specific code**. The following 10 encoding codes are available:

01 - 02 - 03 - 04 - 05 - 06 - 07 - 08 - 09 - 10

To order a selector with relative key encoding code you need to indicate the product code followed by the encoding code.
Example: **DCS100** with encoding code **03 - order AU01940/03**
For more information on encoding see page 5
