

ABLOY® EL420

High security DIN standard motor lock for narrow profile doors

Product descriptionHigh security locks EL420 is used in environments where convenience, higher security, high durability or door automation is needed. The integrated monitoring contacts from the lock

can be connected to the different systems.

Deadbolt is withdrawn inside the lockcase by motor and double action latch is released, when electrical control is on. Door is opened from outside by using door pull. Also possible to connect with door automatics for full hands-free operation.
Inside handle opens lock mechanically (exit function), no need for electric control. When door closes, dead bolt is thrown out automatically, double action latch is blocked and the lock case is secured on two points.

Overview of Advantages

- Motorized bolt traction for push&pull and door automatics use Day/night mode
- Electric anti-tampering: if deadbolt is thrown out when door is not closed, it is withdrawn automatically.
 Mechanical automatic deadlocking
- Reversible handing, left/right
- Burglary-resistant, due to dead bolt with 20 mm throw Exit function from inside handle
- Suitable for fire-rated doors
- Mechanical override with cylinder Back-up function: If deadbolt is withdrawn by motor, when power is down, deadbolt is driven out immediately (closed door) or allowed to come out (when door is closed)
- Monitoring functions
 - Door status
 - Handle down
 - Bolt deadlocked
 - · Bolt in
 - Key cylinder used
 - · Sabotage loop

Scope of delivery

- · 1 pc lock case · 1 pcs control unit EA420
- · Operating manual

- Ordered separately
 Strike plate (e.g. EA324)
 Cable EA218 (6m) / EA219 (10m)
 Lead cover EA280/281
 Handle/pull set (e.g. EH070)
 Cylinder (e.g. CY321T)
